ALUMINI FEEDBACK ACTION TAKEN REPORT

2020-21

Alumni feedback is a vital asset for our institution, offering essential insights into the effectiveness of our programs and services. By understanding our graduates' experiences and perspectives, we can identify both strengths and areas needing improvement, ensuring that we uphold high standards of education and support for both current and future students.

This report summarizes the actions taken in response to the feedback from our valued alumni. It outlines key themes and concerns raised, details the steps we have implemented to address these issues, and underscores our ongoing commitment to enhancing the quality of our educational offerings and campus environment. Through this process, we aim to create a dynamic and responsive learning community that continuously evolves to better serve its members.

The alumni feedback report reflects a generally positive sentiment towards the institution, with most respondents expressing satisfaction or neutrality regarding various aspects. While many alumni praised the academic programs, faculty, facilities, and extracurricular activities, a notable portion expressed neutral opinions, indicating areas where further improvements could be made. This feedback provides a foundation for in-depth analysis and targeted actions to enhance the overall alumni experience.
